Eco-Grip Installation Training Information

Dear Installer:

Thank you for your interest in participating in an installation training class for Eco-Grip Commercial Flooring. Our **three (3) business day installation class** is designed to familiarize qualified vinyl flooring installers with the components of our flooring system, provide hands-on understanding, along with proper installation techniques. The class focus is on the installation of Eco-Grip Commercial Flooring and covers sub floor prep, proper adhesive use, welding, as well as approved installation, flooring layout, and seaming techniques. Please note that this is a "hands on training."

Requirements:

- MUST have a minimum of four years experience with commercial vinyl sheet flooring and welding techniques.
- Pre-Pay the training fee of \$595 per person
- Must arrive for class on time and follow guidelines
- Must show mastery of techniques to obtain a certificate.

Classes begin at 8:00 a.m. and end at 4:00 p.m. (EST). Please keep these hours in mind when making your travel arrangements. Departing the training facility prior to class conclusion may result in class failure. **All required training tools and supplies will be provided by Eco-Grip.** You will be fully responsible for these assigned tools and equipment during your training.

Training Registration Request Form* - all forms must be filled out and submitted with the training fee. Once this information is received by our office, your training dates will be confirmed. All openings are filled strictly on a first come, first serve basis; so, it is recommended to submit your Credit Card Authorization Form as soon as possible.

Recommended Tools:

- Kneepads
- Sharpie
- Tape Measure
- Utility Knife (We will provide blades)

Training Expectations Statement

- Attendance between the hours of **8am-5pm (EST)** is required for all **3 days** of training.
- Late arrivals/early departures will risk forfeiting their certification
- Certificates and Approved Installer status are earned through skills exhibited in the hands-on training class. **Attendance does not guarantee certification.**
- Phones/computer usage is only permitted during scheduled lunch and personal breaks
- Class observers will not receive certificates or Approved Installer ID
- We recognize Charlotte's appeal for great food and nightlife. However, we ask all trainees refrain from alcohol consumption until they have completed the course. Any trainee smelling of alcohol may be asked to leave for the safety of themselves and others.

We want every trainee to not only learn and demonstrate the necessary skills for installation, but also feel comfortable that they can succeed with those skills on their first Eco-Grip installation. Should any trainee lack a few necessary skills and be at risk of not passing, they will be notified by end of day two. We will spend extra time with them on day three to help develop those skills and may offer the opportunity to extend their stay. If a day four option is presented, we highly recommend the trainee adjust their travel arrangements to take advantage of the opportunity.

The class fee includes installation training and materials. Lunch will be provided during training – please advise of any allergies/preferences.

*It is at the sole discretion of Allied Industries International LLC to either accept or refuse any registration request received.
